SUBJECT INDEX

Ability, science achievement 240, 242, 369
Abstracted mathematics curricula 510
Accountability, primary education in Thailand 129, 205
Achieved curriculum 295
Addition/subtraction, development of concepts 458
Adult Attitudes toward Continuing Education Scale 543
Adult learners 531
Age, participation in continuing education 541
Algebra, using calculators and computers 505
American Educational Research Association 403
Apprentice training 555
Artificial intelligence, science education 31
Assessment-driven reform, mathematics 494
Assessment, mathematics proficiency 489
Attitude toward continuing education 543
Attitude toward science
  Canada 269
  China 281
  French Canada 251, 262
  Hong Kong 325
  Israel 358
  Netherlands 370
  United States 392
Australia, SISS, background and classroom factors 237
Author testing, curriculum development 89, 94

Basic skills, continuing education 560
Biology
  computer simulations 21
  SISS, Candada 272
  SISS, Netherlands 371
BIOVIEW 29
BRIDGES, Thailand 129, 145, 199, 219
Britain, science education 319

California Assessment Program 495
Canada, SISS 247, 265
Capacity-building, primary education in Thailand 129, 205
CASE 115, 116
Centralization/decentralization, Thailand 219
Chelsea Science Simulations 27
Chemistry
  computer simulations 22
  SISS, Canada 273
  SISS, French Canada 254
  SISS, Netherlands 371
China, SISS 281
Classroom activities, science achievement 237
Classroom computing technologies 504
Classroom curricula, mathematics 510
Classroom instruction, mathematics, reform 433
Classroom observation, courseware development 87
Classroom practice
  mathematics, reflection and communication 447
  teachers views on mathematics teaching 471, 474
Classroom routine, computers 79
Class within a class, computers 81, 83
Cognitively Guided Instruction 404, 457, 460
Cognitive process model, writing 41
Cognitive theories of learning, mathematics 439
Collaborative learning, computers 32, 59
Colombia, continuing education 581
Communication, mathematics learning 439, 443, 452
Communication skills 428
Comprehensive Employment and Training Act 555, 556
Computer applications 430
Computer-assisted instruction 9, 100
  alternative educational structures 15
  complexity 12
  individualization 10
  social sciences 53
  standardization 11
  writing instruction 39
Computer-assisted learning, science simulations 20, 25
Computer-based instruction
  cost-effectiveness 105
  effects on learning 99
Computer-enriched instruction 100
Computer Intensive Algebra Curriculum 505
Computer-managed instruction 100
Computers
  educational uses 100
  integration of use in education 65
  role of teachers 77
  school mathematics 503
  science curriculum 19
  social science curricula 51
  talk 13
  writing instruction 37
Computer simulations
  science 20
  social science 54

Computers in the Undergraduate Science Curriculum 20, 27
Constructivist teaching 510, 512
Continuing education
  economic and labour market effects 549
  economic payoff, Colombia 581
  effectiveness research 519, 527
  employer-based 550, 558
  financed by trainees 556
  job training in Norway 565
  life chances 593
  participation in 537, 610, 615
  publicly-supported 554
  second chance 619
  social inequality and labor market position 609
Cooperative group assessments 497
Courseware
  classroom observation in development of 87
  development methodology 109
  functions 71
  quality 69
Courseware engineering 110
Curriculum
  development, feedback 89
  ideal, abstracted 510
  implementation, computers 65
  integration of courseware 118
  levels and aspects 293
  opportunity to learn ratings 291, 312
  reform, mathematics, United States 407

Data analysis, science education 29
Data handling, social sciences 57
Data Interrogation, social sciences 57
Davis, D. 483
Deterrents to Participation Scale 541
Developing countries, science education 377
Drill-and-practice software 504
Drill-and-practice teachers 478
Dynamic Modelling System 26
DYNLAB 29

Earnings
  initial and continuing education 601, 617
  job training 570, 575, 581, 586
Ecology and Conservation 33
Economics, models 54
Educational technologies 6
Education Participation Scale 543
Effectiveness research, continuing education 519, 527
Elementary schools, alternative structure 16
Elizabethan Court 60
Employer-based continuing education and training 550, 558
Ethnic origin, science achievement, Israel 356
Expert teachers, mathematics 480, 483
Exploratory tools in science education 26
Externally-mandated tests, mathematics 492

Feedback, curriculum development 89
Finland, SISS, curriculum implementation 291
Firm internal labor markets, job training 570, 575, 577
FISS 343
Foreign language instruction, computers 44
French Canada, science education 247

Gender
  participation in continuing education 540
  science attitudes and achievement 239, 242, 261, 288, 309, 325, 346, 358, 374, 389
Geography
  computer simulations 55
  data handling 57
Geometer's Sketchpad 507
Geometric Probability 421
Geometric Supposers 506
Geometry, Logo 507
Group assessments 497
Groups, mathematics learning 452

Health education, Netherlands 371
Higher education, alternative structure 16
High schools, alternative structure 15
History, computer simulations 56
Home background
  earnings 603
  science achievement 237, 322
Hong Kong, science education 321
Human capital 529, 565, 581
Hungary, SISS 337
Hypermedia 505, 509
Hypertext 44

IEA, SISS 231
Individual curriculum 294
Individualization of instruction 10
Industrial location theory 55
Information Stimulation Plan 111, 112
Information society 428
Information technology 5
  role of teachers 77
Initial education
  participation in continuing education 539, 560, 585, 593, 615
  prediction of job status 604
Instructional systems development 109
Intelligent tutoring systems 31
Israel, SISS 351
ISSTAL model 546

Jasper Series 509
Job training, Norway 565
  earnings 570, 575
  individuals 567, 572
  organizations 569, 572, 575
Job training, Sweden 593

Kibbutz schools, science achievement 355

Laboratories in schools, Thailand 378
Labor force trainability 559

Labor market, continuing education 553, 617, 621
Language arts, CAI 37, 44
Latent curriculum 295
Learnings, effect of computers 99
Lessonware 72, 73
Libraries 6
Life career, continuing education and training 593, 596, 611
Logo
  computer literacy 81, 82
  school mathematics 507

Malmö Study 597
Manipulative-using primary teachers 479
Manpower Training and Development Act 555
Manufacture of Sulfuric Acid 23
Mathematical Power 432
Mathematics instruction 420
Mathematics reform, United States 403
  assessments 489
  cognitive considerations, reflection and communication 439
  cognitively guided instruction 457
  historical perspective 407
  scholarly basis 419
  teachers views 471
  technology 503
Math their Way 477, 479, 486
Metacognition 452
Modelling
  science education 26
  social sciences 54
Modern mathematics 411
Motivation, continuing education 543
Multiple-choice tests, mathematics 490

New math 412
Netherlands
  continuing education, social inequality and labor market 609
  courseware engineering 111
  SISS 363
NEXT computer 115, 117
Norway, job training 565
Nuclear Reactor 24

Occupational status, continuing education 595, 601, 617
OECD, continuing education 528
Open-ended tasks 496
Operational curriculum 295
Opportunity to learn, science
  Australia 243
  British educational system 322
  Canada 275
  Finland 291
  French Canada 250, 257
  Israel 353
  Netherlands 369
  United States 392

Palestine 1947 56
Parents, spending on primary education in Thailand 179
Participation research, continuing education 537
Performance assessments 497
Personality traits, participation in continuing education 542
Physics
  Canada 273
  computer simulations 24
  French Canada 255, 256
  Netherlands 372
POCO Project 114
Portfolio asessment 497
Predator–Prey relationships 21
Pre-employment training 555
Primary education, Thailand
  accountability, capacity-building 129
  distribution of resources 143
  private resources 179
  role of the state 219
  school clusters 199
  teaching quality 165
Private resources, primary education in Thailand 179
Private schools, Thailand 181
Problem solving
  California Assessment Program 495
  cognitively guided instruction 462
Process skills, CAI 58
Project LITMUS 511, 513
PROLOG 57
Publicly-supported CET 554

QUASAR 497, 500
Quebec, science education 248, 254

Ranking, Thailand 133
Recurrent education 528
Reflection, mathematics learning 439, 447, 451
Resources, primary education in Thailand 143, 179
Rodriguez, Y. 485
Role playing, computers, science education 32
Rosenfield, E. 484

Sailing Ships Game 59
Satellite Motion simulations 27
School clusters
  international context 200
  Thailand 136, 199
School effects, science achievement 351, 354
School Mathematics Study Group 412
Science
  Australia, background and classroom factors 237
  British educational system 319
  Canada 265
  China, attitudes 281
  Finland, opportunity to learn 291

French Canada 247
Hungary 337
Israel 351
Netherlands 363
Thailand 377
United States 387
Science achievement model 240
Science curriculum, computers in 19
artificial intelligence 31
data collection 30
exploratory tools 26
simulations 20
Science Teacher Associations 335
Science teachers 250, 258, 325, 334, 338, 355, 380, 390
Second International Science Study 231, 395
Australia 237
Britain 319
Canada 265
China 281
Finland 291
French Canada 247
Hong Kong 321
Hungary 337
Israel 351
Netherlands 363
Thailand 377
United States 387
SENA 581
Sex
participation in continuing education 540
science attitudes and achievement 239, 242, 261, 288, 309, 325, 346, 358, 374, 389
Simulations
learning through 25
science 20, 29
social sciences 54
Skill formation 533
Social cognition, communication 443
Social inequality, continuing education 609
Social science curricula, computers 51
Socioeconomic status
educational resources, Thailand 146, 157, 161, 170
school clusters, Thailand 204
science achievement 239, 242
Software engineering 110
Special education, CBI 104
Standardization of instruction 11
State role in education, Thailand 219
Status attainment 595, 601, 617
Sweden, continuing education and life chances 593
Systematic Classroom Analysis Notation 90

Talking, computers 13
Teachers
cognitively guided instruction 460
computers 45, 65
efficacy 166
information technology and role of 77
primary education in Thailand 130, 165
science 250, 258, 325, 334, 338, 380, 390
views on mathematics teaching 471
Teacher training 47
Teaching to the test 493
Technical innovations 6
Technology
continuing education 529
school mathematics 503
Testing 8
mathematics 490
Thailand 133
Textbooks, Thailand 143, 155
Thailand, primary education
accountability, capacity-building 129, 205
distribution of resources 143
private resources 179
role of the state 219
school clusters 199
teaching quality 165
Thailand, SISS 377
Trial teacher, curriculum development 89, 94
Training
economic and labour market effects 549
economic payoff, Colombia 581
efficiency 559
investment in 519
life chances 593
Transaction Cost Economics 569
Translated curriculum, science 250, 257, 275
Tuition fees, Thailand 181, 182

Unemployment, adult education 618
Unions, job training 568, 573
United States, reform of school mathematics 403
assessments 489
cognitive considerations 439
cognitively guided instruction 457
historical perspective 407
scholarly basis 419
teachers' views 471
technology 503
United States, SISS 387

Videodisc adventures 509
Visual displays, science simulations 20
Vocational education 533, 566, 581

Water on the Land 55
Windmill Location Game 55
Word processing 39, 42
Work, continuing education 539
Workers and machines 58
Workplace needs 428
Writing
computers in instruction 37
social and cultural dimensions 43
subskills 41
Written curriculum 294, 295
Written records 6

Written symbols, reflection and communication 449
WYGIWICT 500
WYTIWYG 492, 494, 500

Youth education
participation in continuing education 539, 615
prediction of job status and earnings 604
